SUMMARY

Enthusiastic fresher with knowledge in Python, Machine Learning, SQL and Data Visualization. Passionate about exploring Data Science and AI to create smart and meaningful solutions for real-world problems. Quick learner with a curious mindset and eagerness to grow in the tech industry.

PROJECTS

AI Business Dashboard 🔗

- Developed an AI-powered business dashboard using Python and Streamlit to analyze sales data, display KPIs, interactive charts, and generate business insights using machine learning.
- **Tech Stack:** Python, Streamlit, Pandas, Scikit-learn, Matplotlib, Joblib.

Retail Sales Analytics Dashboard 🔗

- Built an end-to-end retail sales analytics dashboard using MySQL, Power BI, and Streamlit with SQL CRUD operations, DAX measures, KPIs, and interactive visualizations for business reporting.
- **Tech Stack:** MySQL, SQL, Power BI, DAX, Python, Streamlit, Pandas.

Enterprise Knowledge Assistant 🔗

- Developed a RAG-based AI assistant for enterprise document question answering.
- Used FAISS and Sentence Transformers for semantic search and context-aware responses.
- Built and deployed an interactive Streamlit web application.
- **Tech stack:** Python, Streamlit, LangChain, FAISS, Hugging Face, PyPDF2

TECHNICAL SKILLS

Programming languages

Python • SQL • Java

Analytics

Power BI • DAX • Excel • Tableau • EDA •
MySQL • Data Visualization

Tools

Git • GitHub • VS Code • Jupyter Notebook •
MySQL Workbench

AI and Machine Learning

LLMs • RAG • Prompt Engineering • Scikit-learn
• Random Forest • K-Means • Regression •
Classification

Libraries

Pandas • NumPy • Matplotlib • Plotly •
Streamlit

EDUCATION

B.E (Electronics and Communication Engineering)

Sri Venkateswara College of Engineering
• CGPA: 7.780

10/2022 – 06/2026
Kanchipuram

HSC Bio-Maths

Narayana E-techno School
• 72%

01/2021 – 05/2022
Chennai

EXPERIENCE

Intern

Rubixe AI Solutions

Completed internship at Rubixe AI Solutions with hands-on experience in machine learning, data analytics, and AI model development.

03/2026 – 10/2026

Intern

National Small Industries Corporation (NSIC) 🔗

- Completed 14-day training in embedded systems using AI and IoT.
- Built functional prototype integrating sensors and microcontrollers.

06/2024 – 07/2024
Chennai
